

Management Profile

Sai D. Prasad

President – Quality Operations
Bharat Biotech International Ltd
www.bharatbiotech.com

Sai Prasad has progressive experience in Management, basic science research (molecular biology, cell biology, human genetics, cell culture), good manufacturing practice, good laboratory practice, technical operations, and quality management. He received his undergraduate degree in biochemistry from the University of Wisconsin (USA) and his M.B.A in Finance and Marketing from the University of Iowa (USA). He has more than a dozen publications and patents in the areas of vaccines, biotechnology, human genetics, cell biology and molecular biology. Previously he was the product development lead for several vaccines and biologics, such as ROTAVAC[®], TYPBAR TCV[®], JENVAC[®], malaria vaccines etc.

He has been associated with Bharat Biotech since 2004. In his current role as the President of Quality Operations, he oversees all aspects of quality management including quality assurance, quality control, and quality management systems. The goal of these activities is to develop a strong quality culture and present a safe, efficacious product to ensure its global reach. By assuring a robust quality management system he aims to successfully translate innovation, novel R&D and product development by the company into products with global access.
